SYRIA - DAMASCUS MOB.: 966 940009020

## الرؤية

Vision

## أن نكون الخيار الأول في مجال عملنا من دون منازع. مقدمين حلول المعلوماتية و خدمات

To be the undisputed first choice in our field of work. Providing innovative IT solutions and services with high economic value over the long term.

الصيانة المبتكرة ذات القيمة الاقتصادية العالية على المدى الطويل.

الرسالة

Our mission is to provide IT solutions and maintenance services to our customers as well as installation services and future development where our services are

distinguished to meet the expectations of our customers.

## Values القيم ندير شركتنا من خلال قيمنا الأساسية التي تبقينا ملتزمين بعملنا وتشعرنا بالمسؤولية تجاه

believe in:

كل من عملائنا. القيم الأساسية التي نؤمن بها: الابتكار: اذا لم يكن الابتكار جزءاً من العمل فإننا لا نضيع وقتنا فيه. التفوق: نسعى لنتميز عن البقية من خلال طرق تفكير فريدة. النزاهة: نعمل بجد لإيجاد حلول المعلوماتية و خدمات الصيانة، لكننا نعمل بكل طاقتنا لنبنى الثقة. البساطة: نعمل على تقديم حلول ذكية لتبسيط المشكلة وصيانتها باحتراف.

الشغف: نؤدي خدماتنا لكم كما لو أنها كانت لنا. الشفافية: نقدم بوضوح كل ما نقوم به لنصل الى فهم مشترك. We manage our company through our core values that keep us committed to our business and feel responsible to each of our customers. Key values we

thinking. Integrity: We work hard to find IT solutions and maintenance services, but we are working hard to build confidence. Simplicity: We provide smart solutions to simplify and maintain the problem professionally.

Innovation: If innovation is not part of the work, we do not waste our time. Excellence: We seek to identify our self from the rest through unique ways of

Transparency: We clearly describe everything we do to reach a common understanding.

Passion: We do our services to you as if they were for us.

Team الفريق

Because we give importance to the quality of our services, we focus on the best

staff in their field. We invest in our staff to give their best to serve our customers. Whether in the field of IT engineering, sales, marketing, maintenance or installation, each of them receives the best training to deal with the most complex problems to provide smart solutions as well as doing what serves the

## interest of the client. Our team consists of:

## Technical team for photocopiers and printers maintenance. IT systems and networks engineers. Consultant to help study projects.

 Communications and electron engineers. Programmers of mobile systems and applications. Project Manager and Planning.

Surveillance systems and protection and safety devices specialists Team.

- Graphic Designer. Sales engineers.
- Financial Management Team.

Contracts

can focus on your business, not on the technology you use. This service extends to technical

Field Technical Support: A specialist engineer will work with you within your company

## to provide preventive support for all your IT equipment through periodic visits and emergency support. Telephone technical support: Any problem or malfunction can be reported at any time

and electronic errors. We offer you this service by:

of the day, and on any day of the year during the contract period. Our team will solve the problem by telephone or escalate it to make a field visit when necessary. Programming
